„AIR DE TEMPS“ in Château de Fougerette, Printemps 2015

Movement was the first thing that came to mind when I heard about „Air de Temps“ in Château Fougerette. All the furniture in Air de Temps is mobile.

Dear Guest, you can move the furniture around as you please. I recommend that you follow the movement of the light in the room.

The passing of time as witnessed by the room: the cracks and stains on the walls were taken as drawings previously started and then continued by the artist.

The minimal interventions - TO PULL, I AM GOOD AT WRITING NUMBERS, etc.: these testify to the dialogue between the artist and the space.

The remainders from the work in the room were collected and put in jars. Dear Guests, you are welcome to purchase a jar as a memento of your stay.
